Cal Spas Continues Aggressive Product Rollouts with New Genesis Spa Introduces G518B Hot Tub with Bench Seating, Waterfall, Plug & Play Design

Pomona, Calif., March 27, 2009— Cal Spas announced today it has begun production of the Genesis G518B hot tub, marking the fourth new product launch for the company since January. The G518B is part of the industry breakthrough Genesis line of hot tubs that feature a patent pending “Geoforming” process. Through this process, Cal Spas molds the spa’s shell and cabinet from a single sheet of acrylic, creating a seamless, smooth exterior that is highly durable and provides lasting beauty. Cal Spas is the first spa maker to mold the entirety of a spa’s exterior from one sheet of acrylic.

The Genesis series enables buyers to purchase a quality hot tub for less. In particular, the Genesis series caters to singles, renters, young couples, first time homeowners and buyers who, until now, would have been priced out of buying a quality hot tub altogether.

The Genesis series consists of the G518B, the G518L and the G418T. The Genesis G518B features seating for five in four contoured bench seats and one flat

bench seat. The Genesis G518L features seating for five in one lounge seat, two contoured bench seats and two flat bench seats. The G418T is a compact corner model for two featuring contoured bench seats. Genesis hot tubs are currently available for purchase at authorized Cal Spas dealer locations nationwide. Cal Spas plans to begin production on a round Genesis spa in the coming weeks.

About the Genesis G518B

The Genesis G518B features 18 hydrotherapy jets, bucket seating, a waterfall, molded cup holders, a flow-through heater and a UV-resistant cover. The G518B also features Cal Spas patented 110 Dually pump system for top performance and plug and play convenience. Genesis series hot tubs are the ONLY single motor spas in the industry to offer the performance of two pump heads and plug and play convenience. This patented design eliminates complex wiring and enables the spa to operate by plugging into a standard 110V electrical outlet.

Cal Spas® was founded in 1979 as a provider of luxury hot tubs. Today, the celebrated hot tub maker is world renowned as the #1 Global Manufacturer of Home Resort Products™. The company produces premium collections of lifestyle products from its headquarters in Pomona, Calif. and distributes worldwide through a network of specialty dealers.
